

ourselves to be manipulated by some politicians to get ourselves involved into unlawful acts that can cost our lives. Let's stand firm in our quest to abide to the polls results.

Let us instead focus on building a generation of responsible, peaceful, and visionary young citizens and it's our responsibility towards the state of Cameroon.

I therefore invite you all to:

- Avoid provocation and violence.
- Respect the opinions of others in a spirit of fraternity and conviviality.
- Think before you click the share button
- Avoid forwarding unverified information, hate speech, or divisive content on social media.
- Be the voice of reason in your community, not the echo of chaos.

As Nelson Mandela once said, "**Courageous people do not fear forgiving, for the sake of peace.**"

And as John F. Kennedy reminded the world, "**Civility is not a sign of weakness, and sincerity is always subject to proof.**"

Let these words guide us as we rise above emotion and embrace dialogue, patience, and discipline.
